

BOOST
ZEM DERMO-AESTHETICS

Restore your skin's vitality and radiance through advanced medical-aesthetic treatments that work at the cellular root. Achieve visible, lasting results that renew confidence and the natural harmony of the face and body.

OBJECTIVE Correct facial and body imperfections, revitalize the skin, and restore its structural balance to improve texture, tone, and radiance in a lasting way.

METHODOLOGY An individualized assessment is conducted using facial scanning and specific analyses. Based on the diagnosis, regenerative techniques are applied to stimulate collagen, oxygenation, and cellular nutrition.

WHO IS IT FOR? For individuals with dull, dehydrated skin or signs of ageing, pigmentation, or uneven texture, seeking to restore firmness, evenness, and skin health.

WHAT DOES IT INCLUDE? Personalised protocols divided into two specialties: facial and body treatments, focused on regenerating and balancing the skin.
